This newsletter serves to keep you informed of the happenings at RB as well as to keep you up to date regarding any information that needs to be known.

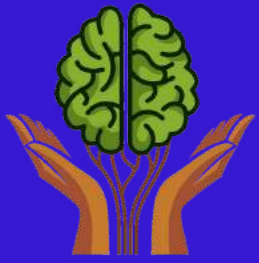

We thrive to embolden, engage and empower our students and we would not be able to do so without close communication with our biggest supporters, our parents.

Physiotherapy

Physiotherapy promotes the health and wellbeing of all. Physiotherapists help people affected by injury, illness or disability through movement and exercise, manual therapy, education, and advice.

Children's physiotherapists have a good understanding of:

- child development
- childhood diseases and conditions that may impact on development and wellbeing
- therapeutic interventions that enable and optimise development and wellbeing
- the need to put the child at the centre of planning
- the impact that having a sick or disabled child has on family life
- how to keep children safe
- how to ensure that children and young people make choices.

Intervention is based on assessing the child's needs and creating an individual treatment programme.

MAKING AN IMPACT GLOBALLY

At RB we align ourselves with the 17 Sustainable Development Goals (SDGs) through our curriculum and teachings. In order to make an impact on a global scale and help in supporting the SDGs, we have joined BIG1. We will be dedicating each term to a minimum 4 SDGs through BIG1. Not only will we be creating awareness through lessons at school but we will be contributing the contributions we have been collecting every Thursday to various initiatives around the world.
